SUMMARY

Computer Engineering final-year student (graduating 2026) with hands-on experience in Java, JDBC, JSP, Servlets, Hibernate, MySQL, and RESTful API development. Completed a MERN Stack internship building full-stack applications and reusable backend components. Strong foundation in Object-Oriented Programming, MVC architecture, and database design. Seeking an entry-level Java Backend Developer role to apply core Java and backend development skills in a production environment.

SKILLS

Languages: Java, JavaScript, SQL

Backend: JSP, Servlets, Hibernate, JDBC, RESTful APIs, MVC Architecture, Node.js, Express.js

Frontend: HTML5, CSS3, React.js

Database: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Windows

Core Concepts: Object-Oriented Programming (OOPs), Data Structures, Database Management Systems (DBMS), API Development, Debugging, Problem Solving

PROJECTS

MHT-CET College Predictor System | Java, JSP, Servlet, Hibernate, MySQL

- Built a full-stack Java web application using MVC architecture to predict eligible engineering colleges based on MHT-CET percentile and cutoff data
- Designed a normalized MySQL database schema to store and query college cutoff records efficiently
- Implemented backend filtering logic in Java/Servlets to match user percentile against cutoff thresholds and return ranked results
- Developed a responsive front end with HTML, CSS, and JavaScript for dynamic result rendering

Personal Finance Manager | MongoDB, Express.js, React.js, Node.js (MERN)

- Developed a full-stack finance tracking application to manage income and expense records
- Designed and implemented RESTful APIs in Node.js/Express for CRUD transaction management
- Integrated chart-based data visualization to help users analyze spending patterns
- Built reusable React components to support a scalable, maintainable front-end architecture

EXPERIENCE

MERN Stack Intern — EYGDS (EY Global Delivery Services) | Feb 2025 - Mar 2025

- Developed responsive web application features using MongoDB, Express.js, React.js, and Node.js
- Built and consumed RESTful APIs to enable frontend-backend communication
- Created reusable React components, improving development consistency across modules
- Collaborated with a team on real-world full-stack development tasks following Agile practices

EDUCATION

Trinity College of Engineering and Research, Pune, Maharashtra | Expected 2026

Bachelor of Engineering, Computer Engineering | SPPU | CGPA: 7.10

Mahatma Gandhi Jr. College, Karjat, Ahmednagar | 2022

HSC (12th) | 62.17%

Mahatma Gandhi Vidyalaya, Karjat, Ahmednagar | 2020

SSC (10th) | 85.60%

CERTIFICATIONS

- EYGDS AICTE Internship Completion Certificate, EY Global Delivery Services (2025)
- Programming in Java
